

Site Visit

Hi Katie,

Thanks for arranging my site visit with you and your supervisor at Red Butte Gardens. It was a pleasure meeting with the both of you. It sounds like you're having a great experience, you're happy at Red Butte Gardens, and your supervisor is happy. That's fantastic! You've made great progress on your goals, which I'm happy about for you. Based on our conversation, it sounds as though you've accomplished all of your previous goals. I highly recommend that at this point you think about what you want to accomplish professionally while at this internship as well as what goals you can accomplish for Red Butte Gardens. Goals are meant to be challenging and progressive. As you accomplish goals, set new, higher goals so that you are sure to know your direction, and so that you keep thinking about your progress as well as the organization's progress. That's my recommendation so that you get the most out of the rest of your internship, but you don't need to submit anything to me for that. I expect your internship will continue to be successful. You seem to be doing great. If you have any questions, please don't hesitate to ask. Thanks again. Keep up the good work!

Preston
